

PCTL
Automation Ltd
Electrical Solution Provider

COMPANY PROFILE

PCTL AUTOMATION LTD

WHO WE ARE

PCTL AUTOMATION LTD. is an electrical engineering solution provider company Specializing in design, manufacturing and servicing of electrical switchboards, Automation systems, Servo Voltage Regulators and customised solutions for both commercial and industrial environments.

We have been offering our products and services in the East African region over 15 years and created a large number of satisfied clientèle in almost all sectors of the business spectrum.

Team PCTL strive hard as a preferred supplier and service provider to satisfy our customer's in the field of electricals across Africa.

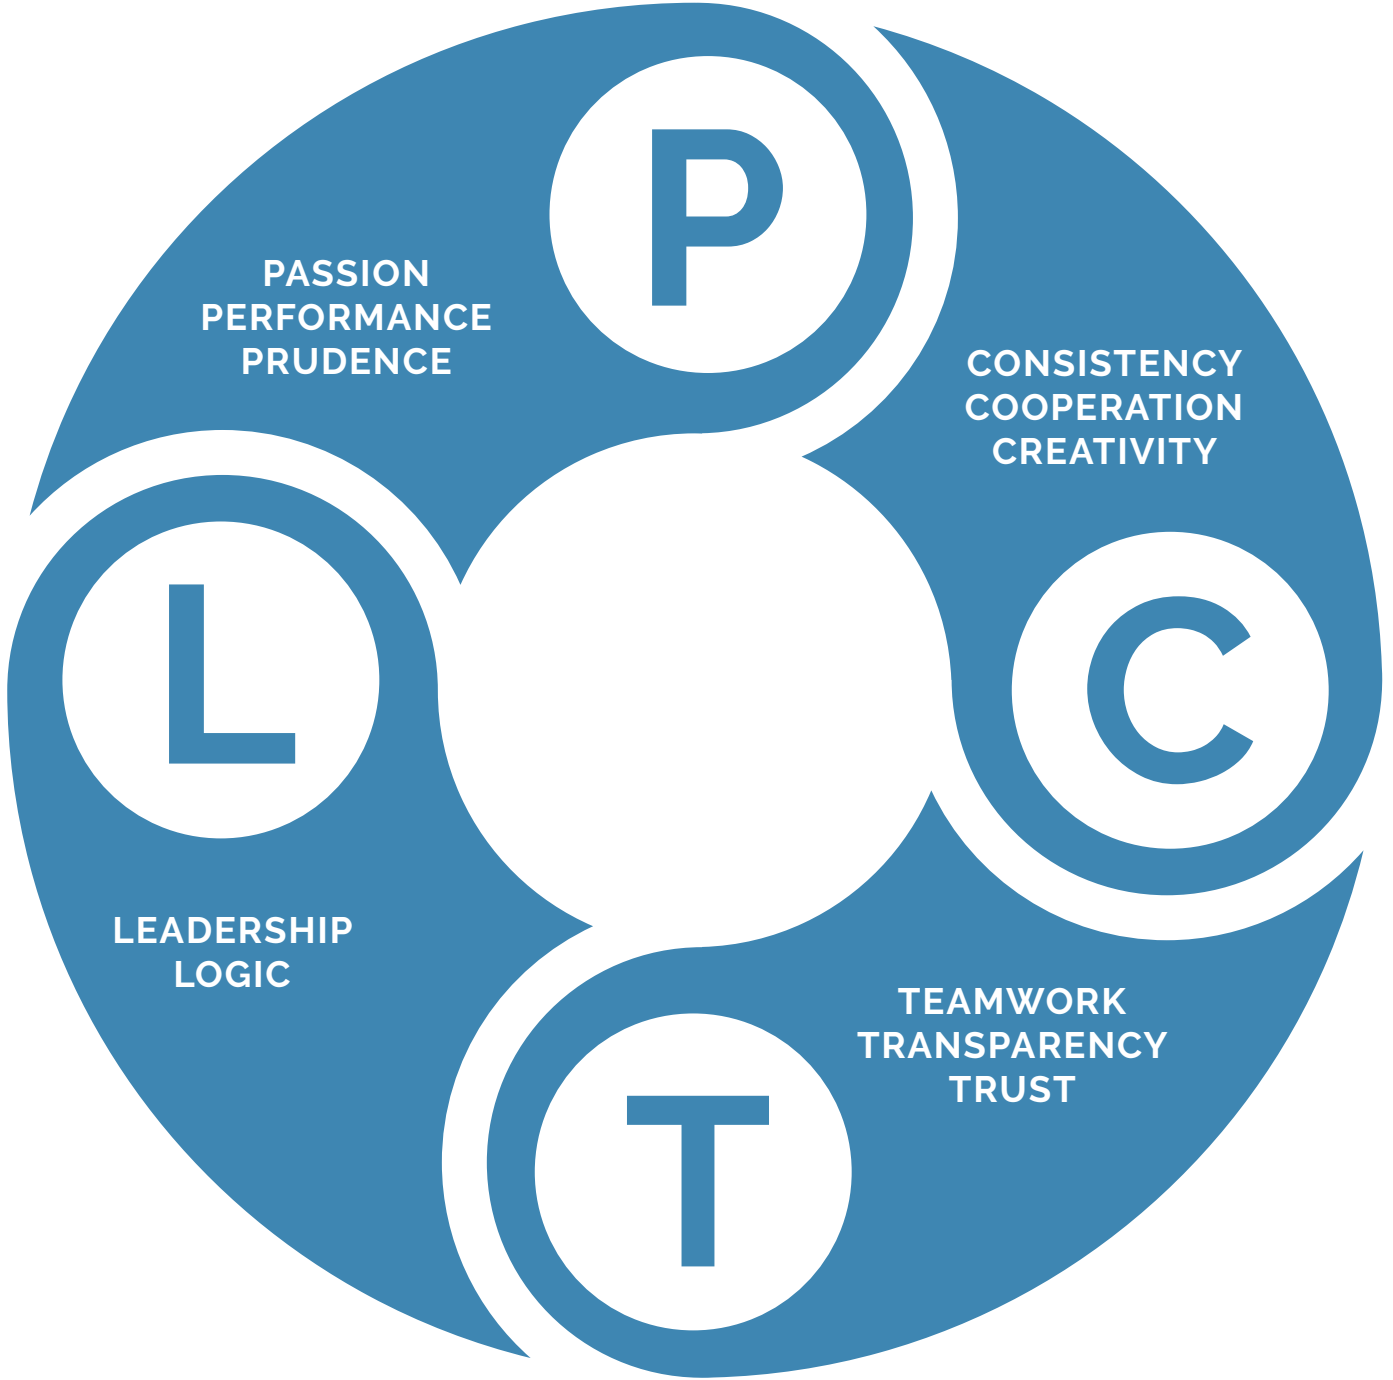

OUR VISION

Establish **PCTL AUTOMATION** as the premier manufacturer & supplier of electrical distribution & control products.

OUR MISSION

"To offer World class electrical products by delivering outstanding values at a revolutionary price".

OUR VALUES

QUALITY POLICY STATEMENT

PCTL AUTOMATION LTD. Is committed to providing high quality Electrical Goods, Services and Engineering Solutions by operating a Quality Management System (QMS). We are continuously working to improve our process, products and Services so as to deliver more than the expectations of our clients.

All our products are in conformance with ISO 9001:2015 certified guidelines, thus enabling the flow of error and trouble free products to the market.

By following stringent quality control measures, we ensure that all our products are of premium quality. Each and every step of the manufacturing process is carefully monitored by our quality Assurance experts, who are well versed in their field and can provide high quality products to the customers.

At **PCTL AUTOMATION** we believe that achieving products excellence requires rising above industry norms- being better than our competitors by developing Superior designs and manufacturing them with outstanding processes, tight controls and excellent materials. Indeed, higher levels of quality and reliability are hallmarks of PCTL Automation products.

OUR SUCCESS

We continuously enhance the features of our products and help customers satisfy all their needs related to power and electricity. Our products are exported to many countries and have successfully established ourselves a reliable concern of global repute.

We build strong, lasting relationships. We pride ourselves on building long-term, meaningful relationships that prove fruitful for our clients. We are also plugged into the national and international marketplace, thanks to our extensive network of contacts. But most of all, we are proud of our reputation as dedicated and trusted solutions providers. By far, our success lies in the lasting relationship we have developed and continue to maintain over the course of time. Clients and Candidates alike tend to work with us on an ongoing basis, relying on our expertise, market insight and determination to assist them in reaching their goals.

OUR TEAM

Having a team of professionals is a boon to us, as their expertise has enabled us to reach the zenith of success in a short span of time. We are well supported by a team of efficient and qualified technocrats and Professionals who have the vision to excel beyond what can be achieved. They are regularly provided with motivational and technical training programs that aid in their overall growth, enabling them to give their best.

The reputation that we have earned over the years conveys to our clients, Sub-contractors, suppliers and Professional groups that we conduct business with the comfort and assurance that our relationship will be a team relationship of mutual benefit to all concerned. Our team relationship, our teamwork, is centered around the four key values of trust, honesty, loyalty and integrity which are essential for guiding our employees in dealing with all of our clients and each other.

OUR COMMITMENT TO THE ENVIRONMENT

PCTL Automation is committed to the management of its business in an environment responsible manner, to care for the environment in which we live and work, and sustain its quality for the benefit of future generations.

In addition we:

- Continuously improve our companys' environmental performance.
- Use all our materials efficiently and effectively to prevent pollution.
- Pro-actively manage waste and recycling wherever possible.
- Complying at all times with applicable environment legislation and environment law.
- Consult with stakeholders, communities and other interested groups.

- An ISO 9001-2015 process certified company
- +15 Years of experience
- +5000 Installations
- Vast experience in offering customized solutions.
- KEBS certified products
- Diamond mark of quality

OUR PRODUCTS

Electrical Distribution

- Distribution Transformers
- Control Panel
- Bus Duct/ BusBar Trunking
- M.V. SwitchGear
- L.V. SwitchGear

Voltage Optimization

- Servo Voltage Stabilizers
- Static Voltage Stabilizers
- IGBT Voltage Regulators

Cable Management System

•Cable Trays

•Cable Trunking

•Cable Ladders

Data Centres

•Server Cabinets

•Network Cabinets

•Open Rack

•PDUs

•Aircons

Industrial Automation

•SCADA

•PLC

•Process Controller

•Drives

SERVICES

•Load Bank Rental

•Annual Maintenance Contract

•Energy Analysis

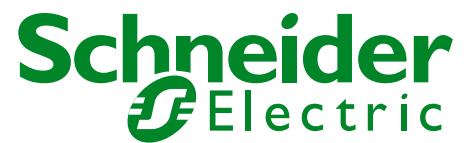

•Energy Saving Project Execution

•Designing of PLC based Industrial
Process/ Machine Automation
